Deeren/Andersen 9/26/25

Math

In math, we continue to work on and practice solving problems with multiplication and division. This includes story problems and standard problems. Students will take a test next Friday, Oct 3rd, over this material. Please practice multiplication 2's, 3's, and 4's with your student at home. It is a huge help in their success with multiplication and division!

Important Dates

10-20: no school/fall break

10-22: half day
(conferences)

10-31: Halloween party

ELA

We are in the middle of our *Because of Winn-Dixie* novel study! All the students are really enjoying the book and often beg us to read just one more chapter! :)

In our Wonders Curriculum, we have been studying the essential question "What can traditions teach you about cultures?" In grammar, we have also been learning about the parts of sentences, including the subject and predicate, as well as what is required to form a complete sentence. In spelling, we focus on and learn one new spelling pattern each week. Students should bring home a list of spelling words to practice. Our spelling tests are on Fridays.

Positives

As we settle into our routines, we've introduced the 'Star Student' of the week program. This exciting initiative ensures that every student has a chance to shine, as names are randomly drawn each Monday. The chosen student then gets to fill out an 'all about me' poster, enjoys the privilege of using teacher pens, and gets to sit at the teacher's table. This has been a fun addition to our week.
